To Whom it May Concern

Dear Mdm/Sir

LETTER OF TESTIMONIAL

Last July, I conducted a weekly 24-hour Action Research Course for teachers in the West Zone and Ms Carean Oh was both a participant and the school-appointed Co-ordinator for this course.

As a participant, she was an enthusiastic and fast learner. She was on-task in her learning and consequently, she and two other colleagues on the same course successfully completed an Action research project by the end of the training. Her interest in continuous learning and in applying what she had learnt is evident in the follow-up on the action research project after the course. Since the completion of the training, she had shared the findings from her project, "Pupils' Perceptions towards Online Learning Environment in Kranji Primary School" with her colleagues in the school, thereby contributing to their professional growth.

Unlike the other participants, I had opportunity to work closely with Ms Carean Oh in this Action Research course since she was its Co-ordinator.. I find her super efficient, responsible and very well-organised. Each week, she would take care of all the logistics of the course ranging from getting the room ready for training to ensuring that people who were unable to turn up for sessions hand in their supporting documents to explain their absences. When there was change of rooms for training, she not only notified participants well in advance but also ensured that there were effective sign-posting to guide us to the changed venues. She demonstrated good problem-solving skills as seen in one incident at the course. In one of the sessions, four teachers from another school "gate-crashed" the training. She dealt with the situation and had it resolved by working with NIE. Indeed, it was indeed a pleasure to work with her.

I strongly recommend her for the OYEA (Outstanding Youth In Education) Award.

Yours sincerely

POH CHWEE SIAN (Ms)
